

Scituate Anchors Program

# Families Supporting Families

# You Are Important!

## PILLAR 1: Culture of Collaboration

- Home Away from Home: You Are Important!
- Everyone has a seat at the table, is treated with respect, and is treated fairly and appreciated.

In keeping with our first pillar of collaboration, **Scituate Anchors** is a program designed to foster and nurture valuable relationships between students, families, community members, and stakeholders within the school district, emphasizing our **Boston-Scituate connections**.

# You Are Important!

## PILLAR 2: Culture of Excellence

- Academic and personal excellence is an expectation for all.
- It is our collective responsibility to ensure we do “whatever it takes” to support each individual student.

**Scituate Anchors** allows for community collaboration, the maintenance of solid established relationships, and the ability to do “whatever it takes” to have our students reach their full potential.

# WHAT IS AN ANCHOR?

An **Anchor** can be a family of any SPS student, teacher, school staff, or a community member/family that has chosen to partner with and support others within our school district regardless of residential address.

# WHAT DOES SCITUATE ANCHORS DO?

- Provide opportunities for students and families to celebrate their similarities and unique identities outside of the classroom.
- Provide an extra layer of support socially, emotionally, and academically.
- Provide a platform for families to connect over planned community events
